② 国 小 A Thermal Overcurrent Circuit Breaker 1110-...

Description

Tease-free, trip-free, snap action mechanism. Designed for snap-in panel mounting utilising round hole or industry standard fuse-holder cut-out dimensions. Featuring an ergonomically styled two colour actuator with indicator band clearly showing the tripped/OFF position. Approved to CBE standard EN 60934 (IEC 60934): S-type TO CBE

Typical applications

Motors, transformers, solenoids, extra low voltage systems, household and office machines, instrumentation, marine applications, mobile homes.

Features

- Single pole thermal circuit breaker/switch combination
- Voltage rating: AC 250 V, DC 50 V
- Current ratings: 0.05...16 A
- Approvals: VDE, UL, CSA
- Accessories: Plastic cap to protect against dust and water in actuator and terminal area (IP64)

Your benefits

- Cost and space savings because one component unites the functions of ON/OFF switch and overload protection
- Time savings through quick trouble-shooting and fast and easy reset by push button
- Maximum machine and equipment uptime through perfectly matched overload protection protection and quick reset

Preferred types - for more details on all configurations please see order numbering code

Preferred types are E-T-A products most frequently used by E-T-A customers. We manufacture E-T-A preferred types in particularly high volumes.
