

Sensors &gt; Vibration Sensors

Accelerometer Type: **MEMS DC**Vibration Sensor Product Type: **DC Response Plug & Play Accelerometers**Number of Sensing Axes: **Uniaxial**Frequency Response: **0-1500 Hz**Full Scale Output Voltage: **±2 VDC**

## Features

### Product Type Features

Accelerometer Type	MEMS DC
Vibration Sensor Product Type	DC Response Plug & Play Accelerometers

### Configuration Features

Electrical Connection	Integral Cable
-----------------------	----------------

### Electrical Characteristics

Zero Acceleration Output	±50 mV
Excitation Voltage	4 – 30 VDC
Full Scale Output Voltage	±2 VDC

### Signal Characteristics

Frequency Response	0-1500 Hz
--------------------	-----------

### Body Features

Product Weight	8 g [.28 oz]
Primary Product Material	Anodized Aluminum
Number of Sensing Axes	Uniaxial

### Mechanical Attachment

Mounting Type	Screw
---------------	-------

### Usage Conditions

--	--

Operating Temperature Range	-55 – 125 °C[-67 – 257 °F]
-----------------------------	----------------------------

### Industry Standards

IP Rating	IP65
-----------	------

### Other

Nonlinearity	±.1 %FSO
--------------	----------

Acceleration Range (±)	10 g
------------------------	------

Sensitivity	200 mV/g
-------------	----------

### Product Compliance

[For compliance documentation, visit the product page on TE.com>](#)

EU RoHS Directive 2011/65/EU	Compliant
------------------------------	-----------

EU ELV Directive 2000/53/EC	Not Yet Reviewed
-----------------------------	------------------

China RoHS 2 Directive MIIT Order No 32, 2016	No Restricted Materials Above Threshold
---	---

EU REACH Regulation (EC) No. 1907/2006	Current ECHA Candidate List: JAN 2023 (233) Not Yet Reviewed
--	---

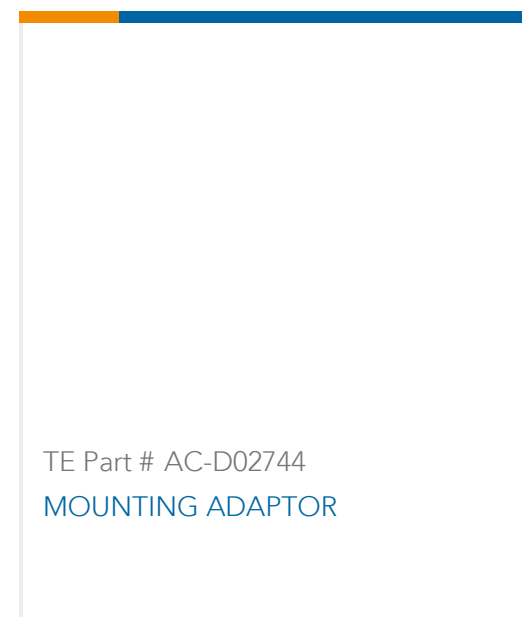

Halogen Content	Not Yet Reviewed for halogen content
-----------------	--------------------------------------

Solder Process Capability	Not reviewed for solder process capability
---------------------------	--

#### Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked. Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
