

**Sockets & Accessories, R10 Relays**

- Sockets for 2 - 6 pole relays
- Solder, PCB or screw terminal sockets
- Choice of grounding provision on sockets
- Hold down springs
- Plates and brackets permit various mounting options

**Approvals**

UL E59244, CSA LR15734  
Technical data of approved types on request

**Technical Data**

Socket contact material	Spring brass, tin plated
Socket body material	
2 and 4 pole models	Polyester
6 and 8 pole models	Phenolic
Maximum current	10A
Voltage drop	30mV max. at 10A
Dielectric strength	1,000Vrms
Insulation resistance	10 <sup>9</sup> megΩ

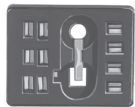

**Solder and PC terminal sockets**

Rugged, molded socket body retains floating terminals of either solder or printed circuit pin configuration. PC terminal sockets are offered with pins in either 0.1" (2.54mm) grid or in-line arrangement.

**Grounding provisions**

Pre-installed on sockets  
Not for use at 5A AC and above.  
Grounding Strip: Mounting stud of relay contacts grounding strip. Grounding strip is grounded with screw or rivet through round hole in socket.  
Grounding Terminal (PC sockets only): Mounting stud of relay contacts ground terminal through square hole in socket.

All accessories must be ordered separately.

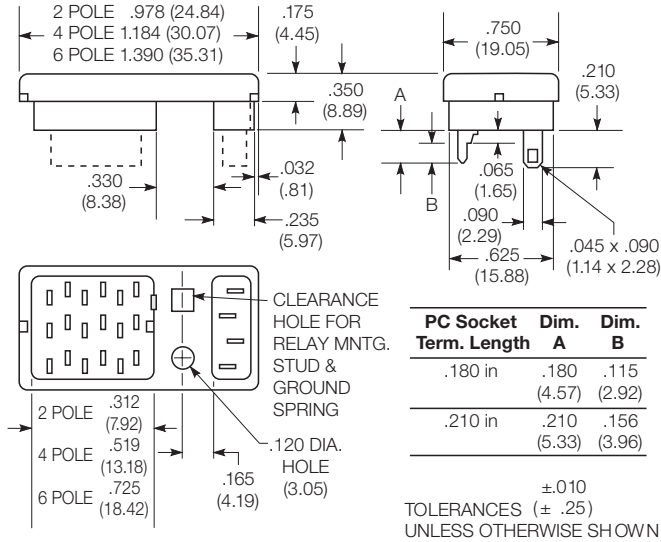

**Caution:**

Printed circuit sockets are manufactured with "floating" (loose) terminals. This permits them to align with holes in the circuit board and with the relay terminals. During the mounting and soldering of the socket, vertical float should be eliminated and the terminals seated on the board. (This may be accomplished by inserting a dummy relay in the socket.) Failure to eliminate float may cause fracture of the solder joint or separation of the copper conductor from the printed circuit board when a relay is inserted in the socket after soldering.

**Dimensions**

Bracket Mount socket 27E317 and 27E152  
Allows solder terminal relay to mount flat on a chassis.

Flange mount socket 27E446, 27E447, 27E448  
Solder terminal socket with tin-plated terminals and grounding strip pre-assembled on .065" (1.65mm) steel mounting plate. Requires only one chassis cutout.

Track mount sockets 27E460, 27E461, 27E462  
Provides front wiring, screw terminal connections for R10 family relays. No grounding provision.
