## KONTRON 38017-0000-00-5

### Details

<b>Part Number</b>	38017-0000-00-5
<b>Manufacturer</b>	KONTRON
<b>Category</b>	Accessories
<b>Price</b>	Request Quote
<b>Lead Time</b>	Request Quote

### Description

Kontron 38017-0000-00-5 Cooling &amp; Mounting COMe Mount KIT 5mm 1set

### Why buy from GID?

#### Quality

We are industry veterans who take pride in our work

#### Protection

Avoid the dangers of risky trading in the gray market

#### Access

Our network of suppliers is ready and at your disposal

#### Savings

Maintain legacy systems to prevent costly downtime

#### Speed

Time is of the essence, and we are respectful of yours

### Our Process

#### Preparation

Once you accept your quote and confirm your order, we prepare by retrieving related parts and components from our inventory. Anything we do not currently have in stock is sourced.

#### Receiving

### Request a Quote

Upon receipt, all parts are visually inspected for damage and then photographed to document their condition. Parts acquired from vendors must meet our quality standards.

### Initial Testing

Industrial computer boards and other parts we are equipped to evaluate are tested to verify functionality and discover possible damage.

### Refurbishment

Industrial computer boards have all components with low MTBF numbers (such as capacitors and connectors) replaced and are washed in our PCB cleaner to remove dust and grime.

### Repair

Industrial computer boards are fully diagnosed and repaired by our engineers. Logs of the problems encountered and solutions implemented are recorded.

### Final Testing

Industrial computer boards have all I/O connections rigorously tested to ensure that everything is working properly before the board is certified as ready to ship.

### Shipping

After photos are taken to document the exterior condition of the part, it is packaged and sent to the customer. ESD-safe materials are used to protect sensitive equipment on its journey.
