

## Description

Single pole and multipole thermal-magnetic miniature circuit breakers (MCBs) in accordance with EN 60947-2, UL 1077 and UL 489 for DIN rail mounting, with toggle actuation, visual status indication and high rupture capacity. A positively trip-free snap action mechanism ensures reliable switching behaviour. A range of trip characteristics and add-on modules allow a great variety of applications.

## Typical applications

Protection of cables, motors, generators and transformers, thyristors and silicon rectifiers. Protection of computers and their peripheral equipment, industrial process control systems, telecommunications equipment, power supplies.

## Technical Data

### Voltage rating and current rating range

to IEC/EN 60947-2	1-pole: AC 240 V; 1 A...63 A; 2, 3, 4-pole: AC 415 V, 1 A...63 A; 1-pole: DC 80 V, 1 A...63 A 2-pole: (2 poles connected in series) DC 125 V, 1...63 A
to UL 1077	1-pole: AC 277 V; 1 A...63 A; 2, 3, 4-pole: AC 480Y/277 V, 1 A...63 A; 1-pole: DC 60 V; 1 A...63 A; 2-pole (2 poles connected in series): DC 125 V; 1 A...63 A;
to UL 489	1-pole: AC 120 V; 1A...63 A; 2, 3-pole: AC 240 V, 1 A...63 A; 1-pole: AC 277 V; 1 A...32 A; 2, 3-pole: AC 480Y/277 V; 1 A...32 A; 1-pole: DC 60 V; 1 A...63 A; 2-pole (2 poles connected in series); DC 125 V; 1 A...63 A;

### Typical life

Mechanically	20,000 cycles
Electrically	6,000 cycles

## Technical Data

### Rupture capacity

to IEC/EN 60947-2 (Ics)	AC 7,500 A / DC 10,000 A
to IEC/EN 60947-2 (Icu)	AC/DC 10,000 A
to UL 489	AC/DC 10,000 A

### to UL1077

Number of poles	Un	In	TC	OL	SC
1-pole	AC 240 V	1...63 A	1	1	7.5 kA, U1
1-pole	AC 277 V	1...63 A	1	0	5 kA, U1
2-, 3-, 4-pole	AC 480 V	1...63 A	1	1	5 kA, U1
1-pole	DC 60 V	1...63 A	1	0	7.5 kA, U1
2-pole in series	DC 125 V	1...63 A	1	0	7.5 kA, U1

Insulation coordination overvoltage category III (Uimp 4kV) pollution degree 3

Degree of protection IP20

Vibration (sinusoidal) test to IEC 60068-2-6, test Fc ± 0.38 mm (10–57 Hz), 5 g (57–500 Hz) 10 frequency cycles per axis

Shock, test to IEC 60068-2-27, test Ea 30 g (11 ms)

Corrosion, test to IEC 60068-2-11, test Ka 96 hrs in 5% salt mist

Humidity, test to IEC 60068-2-78, test Cab 48 hours at 95% RH, temperature +40°C

Terminals screw terminals  
Vertical connection possible by means of busbars

Tightening torque 2 Nm max.

Cable cross section ≤35 mm<sup>2</sup>

Ambient temperature: -35°C...+ 70°C

Mounting rail mounting

Mass approx. 116 g per pole (EN 60947-2/ UL 1077) approx. 131 g per pole (UL 489)

## Order numbering code

### Type No.

4230 single and multipole thermal-magnetic high performance circuit breaker

### Mounting

T1 rail mounting

### Number of poles

- 1 single pole protected
- 2 double pole protected
- 3 three pole protected
- 4 four pole protected\*

### Accessories

0 without

### terminals

K0 screw terminals

### Characteristic curve

B: thermal  $1.05 - 1.30 \times I_N$ ; magnetic  $3.2 - 4.8 \times I_N$

C: thermal  $1.05 - 1.30 \times I_N$ ; magnetic  $6.4 - 9.6 \times I_N$

D: thermal  $1.05 - 1.30 \times I_N$ ; magnetic  $9.6 - 14.4 \times I_N$

### Approvals

### 3-pole

### 4-pole

## DC application

When using the 4230-T in DC application, polarity does not have to be observed. Max. acceptable voltage between the conductors depends on the number of poles, circuitry and relevant standard / approval.

### To IEC/EN 60947-2:

### To UL 489 and UL 1077:

## Dimensions – IEC/EN 60947-2 / UL1077 version

## Dimensions – UL 489 version

All dimensions without tolerances are for reference only. E-T-A reserves the right change specifications at any time in the interest of improved design, performance and cost effectiveness, the right to make changes in these specifications without notice is reserved. Product markings may not be exactly as the ordering codes. Errors and omissions excepted.

**Time/current characteristics**

## Description

Add-on module for circuit breaker type 4230-T. The auxiliary switch has a change-over contact as signal contact and is operated with actuation of the MCB.

## Typical applications

Status monitoring of MCB and/or the connected loads.

## Mounting

The add-on module is mounted on the left side of the MCB (seen from the front). For mounting, the MCB has to be in the OFF position.

## Order numbering code

### Type No.

UL	UL 489	with key index "B"

## Mounting instructions

Mounting to MCB to UL 489

The following steps have to be carried out for mounting the auxiliary contact module:

- Remove the left-side covers for the latching notches of the auxiliary contact module on both isolation pieces of the MCB, e.g. by means of a screw driver
- Pull off the isolation pieces from the MCB to the front
- Remove blanking plug on MCB to open left-side holes for latching notches of auxiliary switch
- Re-insert isolation pieces onto MCB
- Pull off left-side adhesive cover and carefully remove the perforated cover below

Caution: the MCB to UL489 must only be operated with the insulation pieces fitted.

## Schematic diagrams

## Mounting principle

### Description

Add-on module for MCB type 4230-T. The fault indicator has a change-over contact as signal contact. There will only be a signal when the MCB tripped on grounds of a failure (overload, short circuit), but not when the MCB was switched on or off manually. By actuating the reset lever on the front the tripping signal is acknowledged.

### Typical applications

Status monitoring of MCB and/or the connected loads.

### Mounting

The add-on module is mounted on the left side of the MCB (seen from the front). For mounting, the MCB has to be in the OFF position.

Caution: the MCB to UL489 must only be operated with the insulation pieces fitted.

### Schematic diagrams

### Mounting principle

### Description

Add-on module for MCB type 4230-T. The working current module serves for remote trip of the MCB and for signalling whether the MCB was tripped electrically or manually.

### Typical applications

Electrical remote trip of safety equipment with simultaneous monitoring of MCB status or its connected load.

### Mounting

The add-on module is mounted on the left side of the MCB (seen from the front). For mounting, the MCB has to be in the OFF position. When auxiliary contact module/fault indicator module and a working current module are mounted at the same time, the working current module always has to be mounted first.

- Pull off the isolation pieces from the MCB to the front
- Remove blanking plug on MCB to open left-side holes for latching notches of working current module
- Re-insert isolation pieces onto MCB
- Pull off left-side adhesive cover and carefully remove the perforated cover below

Caution: the MCB to UL489 must only be operated with the insulation pieces fitted.

### Approvals

Approval authority	Standard	Types
UL	UL 489	Approval type "B" according to ordering number code

### Schematic diagrams

**Busbars UL 489 to be cut to length**

Busbars for the connection of circuit breakers **type 4230-..U.. to UL 489** The busbars of 1m length can individually be cut to a suitable length for the application and isolated with end caps. Depending on the control cabinet design, the supply is by means of supply terminals without increasing the installation width or by means of a terminal block directly on the rail without increasing the installation height.

The models marked with "HS" are suitable for use with auxiliary contact modules with a width of 9 mm.

- Busbar cross section: 18 mm<sup>2</sup>.  
 Max. busbar current I<sub>S</sub> (at 35°C):  
     with supply at the end: 80 A  
     with supply in the middle: 160 A  
 Short circuit strength I<sub>CC</sub>: 10 kA  
 Max. operating voltage: 480 V AC/DC  
 Degree of protection: IP20  
 Step size: 17.8 mm

**end caps**  
 for single pole busbars: **part no. X4230-EC2**  
 for multipole busbars: **part no. X4230-EC3**

**Protection against brush contact**  
**part no. X4230-TC3**

for covering unused modules.

**Accessories for busbars UL508 that can be cut to length:**

**supply terminals**  
 for single pole busbars: **part no. X4230-FTR135**  
 for multipole busbars: **part no. X4230-FTR335**

Cross-section: 6 - 50 mm<sup>2</sup> (1-10 AWG), solid/stranded  
 6 - 35 mm<sup>2</sup> (2-10 AWG), finely stranded with wire end ferrule  
 Tightening torque: 5.5 Nm (50 lbf.in)  
 Ampacity: max. 115 A

**Accessories for busbars UL508 that can be cut to length:**

**Terminal block**  
**part no. X4230-FBR50**

Cross-section: 6 - 50 mm<sup>2</sup> (1-10 AWG), solid/stranded  
 6 - 35 mm<sup>2</sup> (2-10 AWG), finely stranded with wire end ferrule  
 Tightening torque: supply: 3.5 Nm (35 lbf.in)  
 output (track side): 2.5 Nm (22 lbf.in)  
 Ampacity: max. 115 A

**Busbars for IEC applications, to be cut to length**

Busbars for the connection of circuit breakers **type 4230-..E.. to IEC 60947-2**. The busbars of 1m length can individually be cut to a suitable length for the application and isolated with end caps.

The models marked with "HS" are suitable for use with auxiliary contact modules with a width of 9 mm.

Busbar cross section: 16 mm<sup>2</sup>  
 Max. busbar current I<sub>s</sub> (at 35°C):  
     with supply at the end: 80 A  
     with supply in the middle: 130 A  
 Short circuit strength I<sub>cc</sub>: 10 kA  
 Max. operating voltage: 690 V AC/DC  
 Degree of protection: IP20  
 Step size: 17.8 mm

Number of poles	Number of modules	part no.
1-pole	57	Y 311 622 01
2-pole	56	Y 311 623 01
3-pole	57	Y 311 624 01
4-pole	56	Y 311 625 01
1-pole + HS	37	Y 311 626 01
2-pole + HS	46	Y 311 627 01
3-pole + HS	48	Y 311 628 01
4-pole + HS	52	Y 311 629 01

HS = application with auxiliary switch 9 mm

**end caps**  
 for single pole busbars: part no. Y 307 851 01  
 for 2-/3-pole busbars: part no. Y 308 506 01  
 for four-pole busbars: part no. Y 311 633 01

**Protection against brush contact**  
 part no. Y 311 632 01

**Accessories for busbars to IEC 60947 that can be cut to length:**

**supply terminal for multiple busbars:**  
**part number Y 311 630 01**

Cross-section: 6–25 mm<sup>2</sup>, solid/stranded  
 4–16 mm<sup>2</sup>, finely stranded with wire end ferrule:  
 Ampacity: max. 80 A

**Accessories for busbars to IEC 60947 that can be cut to length:**

**supply terminal for multiple busbars:**  
**part no. Y 311 631 01**

Cross-section: 6–50 mm<sup>2</sup>, solid/stranded  
 4–35 mm<sup>2</sup>, finely stranded with wire end ferrule:  
 Tightening torque: 1 Nm (at 6 mm<sup>2</sup>)  
 3.5 Nm (at 50 mm<sup>2</sup>)  
 Ampacity: max. 125 A  
 Degree of protection: IP20, isolated bottom
