**TABLE IV: CONNECTOR DESIGNATOR**

ARINC 600 series connector backshells are designed to replace the insert retainer plates for connector designators P, P1, P3 and P5 (P2 and P6 backshells require the use of the connector manufacturer's retainer plates). Due to non-standard modifications by the connector manufacturer, the backshell may require special design alterations to mate properly. The following should be used to determine if a backshell modification is required. Prior to ordering, consult factory with connector part numbers not shown to ensure a proper fit

Connector Designator	Connector Description
