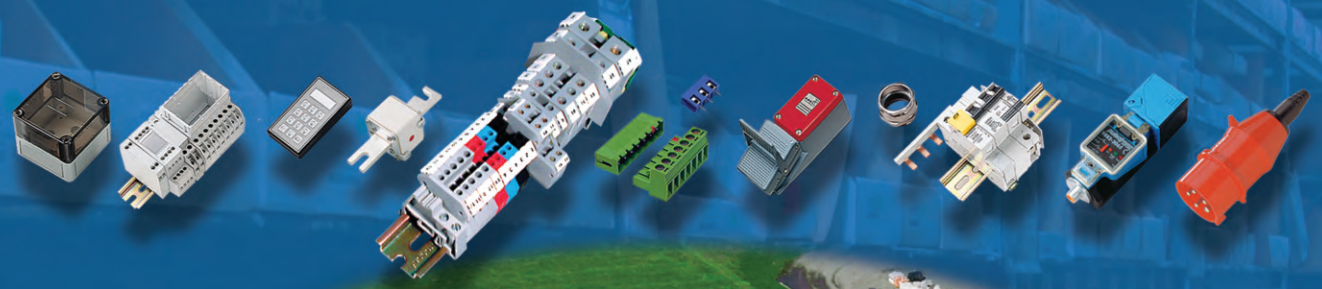
Test and Measurement

Since 1984, Altech Corporation has grown to become a leading supplier of automation and industrial control components. Headquartered in Flemington, NJ, Altech a supplier of electronic components has an experienced staff of engineering, manufacturing and sales personnel to provide the highest quality products with superior service. This is the Altech Commitment!

Our well trained technical experts welcome the opportunity to answer your technical questions and provide solutions to your automation and control needs. Give us a call or visit www.altechcorp.com.



Quality Commitment

Altech's control components meet diverse national and international standards such as UL, NEC, CSA, IEC, VDE and more. Altech provides superior customer service and delivery through Total Quality Management and Continuous Process Improvement. Altech is ISO 9001 approved. We perform these services with honesty and integrity and are committed to achieve these goals.

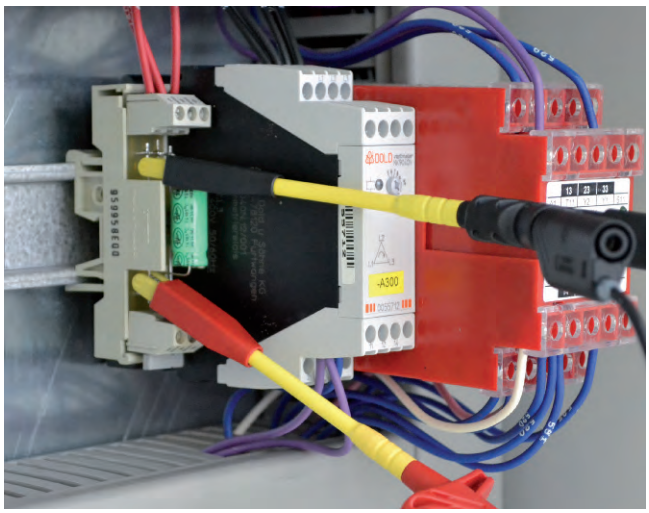
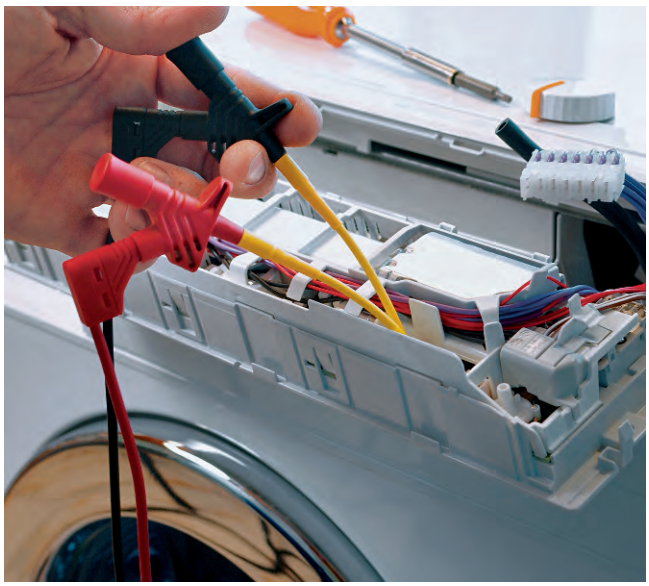
Plunger Style Test Clips

Altech Plunger Style Test clips are easy to work with Test & Measurement Tools. They can handle high voltages, allow accessing difficult to reach areas and keep your hands free for other tasks. The grabber can access every measurement point even on the smallest Device or PCB Board circuit. The KLEPS 2700 is patented and its stainless steel piercing tip allows access to the wire without stripping.

- Measuring “difficult to access” testing points
- Various designs for different applications
- Handle with multiple connection points
- Patented KLEPS 2700 with special design steel tip for accessing connected wire





Plunger Style Test Clips
0.64 mm System

Altech Corp.® by HIRSCHMANN Test & Measurement

Type	**MICRO-KLEPS**	**KLEPS 3 ST**
	Mini plunger style test probe with rotating pincers, insulated shaft bendable up to 35°, suitable for very thin wires and densely packed contact points, fits MKL and MAL leads.	Mini plunger style test probe with rotating pincers, suitable for very thin wires and densely packed contact points, fits MKL and MAL leads.

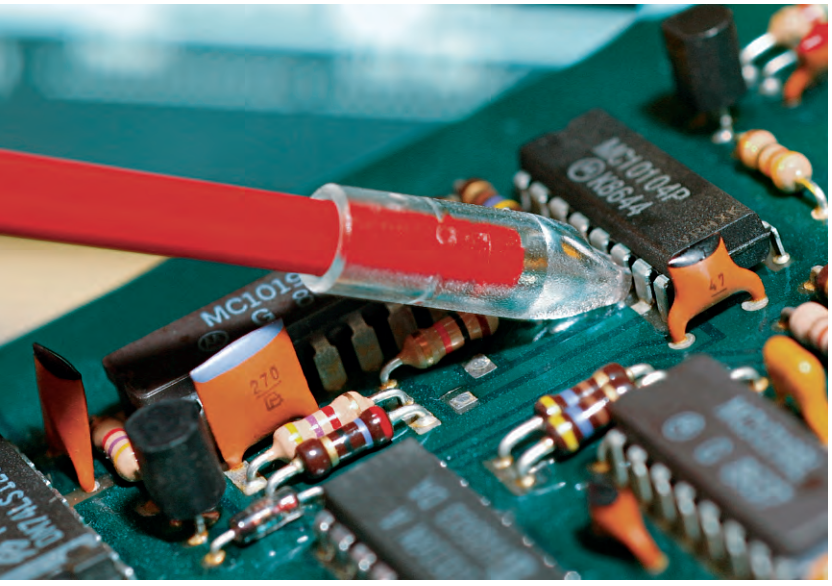
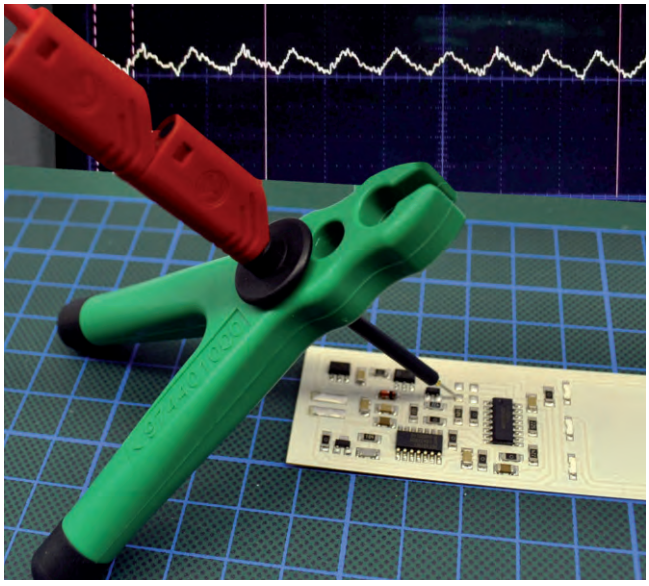
Test Probes

Altech offers the proper test probe for every specific application. Due to small dimensions in electronic devices, test probes need to be very precise. The Test probes on the following pages meet these high standards.

- Slim and compact body for easy access
- Stainless steel tips
- Spring-loaded tips guarantee contact without damaging test object
- Suitable for testing through oxidation and insulation layers





Test Probes
2 mm System

Type	MICRO-PRUEF MPS 2 0,64 FT	PRUEF 1
	Miniature test probe with spring loaded stainless steel probe tip for sampling extremely small measuring points and SMD components. Because the probe tip is sprung, it cannot slip off and provides constant pressure. Connects with MKL 0.64/25-0.25 and MAL N 4-0.64/100-0.25.	Miniature test probe for sampling extremely small measuring points. Shatter-proof grip, may be unscrewed. The stainless steel tip easily penetrates insulation and oxide layers. Solder connection up to 0.5 mm².
Tip diameter	0.75 mm (0.029 in.)	1 mm (0.039 in.)
PART NO. / Housing color	**973995100** ● **973995101** ●	**931376100** ● **931376101** ●

Technical Data		
Connection Type	spring-loaded tip	stationary tip
Voltage Rating	fixed pin Ø 0.64 mm	solder connection up to 0.5 mm²
Measurement Category (IEC61010)	30 VAC / 60 VDC	30 VAC / 60 VDC
Current Rating*	CAT I	CAT I
Contact Resistance	1 A	1 A
Material Specifications		
Tip	stainless steel	stainless steel
Connection pin/ socket	nickel plated brass	nickel plated brass

Oscilloscope Test Probes
High Frequency Measurement

Altech High Frequency Test Probes are for direct connection to oscilloscopes. The line consists of a standard 5mm series with adjustable probe ratio and 2.5mm series with fixed 10:1 ratio.

- 10:1 probe ratio
- Exchangable spring tip
- Low Input Capacitence

Type

TKO 5 - PMS 221A

Passive High Impedance Miniature Test Probe with 150 MHz Bandwith and Probe Ratio 10:1 (Switchable, 20 MHz @ Probe Ratio 1:1). The probe is adjustable for low frequencies.

Features:

- Modular Probe
- Coaxial Design
- Coaxial Reed Switch
- New IC contact system for 0.003" to 0.004" grids
- Interchable Spring Contact Tip for reliable Contacting

PART NO. **974312000**

Technical Data		
Probe Ratio	1:1	10:1
Input Ressitance	-	10 MΩ
Input Capacitence	78 pF inkl. Oszi.	13 pF
Oscilloscope Input	1 MΩ AC/DC	1 MΩ AC/DC
Probe bandwidth	20 MHz	150 MHz
Risetime	18 nsec	2,4 nsec
Compensation Range		15 ... 40 pF
Measurement category	55 V eff. CAT II	300 V rms CAT II
Pollution degree	2	2
Safety standard	IEC 61010-031	
Cable length	1.2 m (3.94 ft.)	

Drawing

Measurements are shown in millimeters. Multiply by 0.03937 to convert to inches.

Oscilloscope Test Probes
High Frequency Measurement

Altech Corp.® by HIRSCHMANN® Test & Measurement

Type

TKO 2,5 - PML 711A

Passive High Impedance Miniature Test Probe with 500 MHz Bandwith and Probe Ratio 10:1. Designed for Oscilloscopes having 1MOhm Input resistance.

Features:

- Compact Size (0.008” probe tip) ideal for measuring SMD Components
- 0.002” gold plated spring loaded changeable Probe tip
- Innovative IC contact system for 0.002” to 0.004” grids
- With ReadOut (RO)

TKO 5 - PMT 221A

Passive High Impedance Miniature Test Probe with 250 MHz Bandwith and Probe Ratio 10:1 (Switchable, 30 MHz @ Probe Ratio 1:1). The probe is adjustable for low frequencies.

Features:

- Modular Probe
- Coaxial Design
- Coaxial Reed Switch
- Innovative IC contact system for 0.003” to 0.004” grids
- Interchable Spring Contact Tip for reliable Contacting
- HF- Adjustment

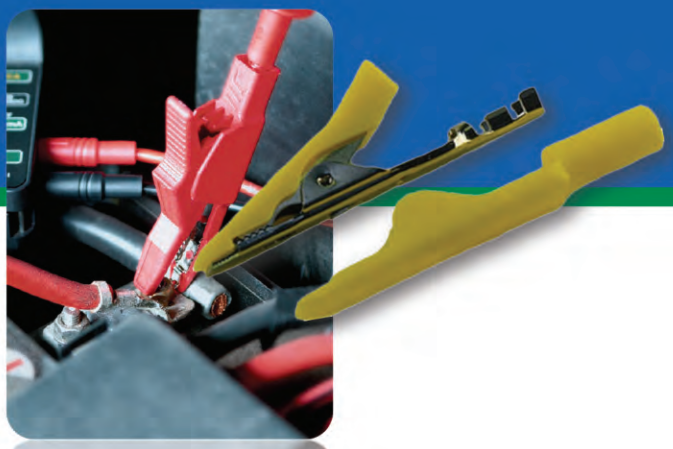
- IC covers 0.8 to 1.27mm (0.003-0.004”)
- Spring Hook 5.0mm (0.016”)
- BNC Adapter 5.0mm (0.016”)
- 2 Foot Positioner
- Adjustment Tool T



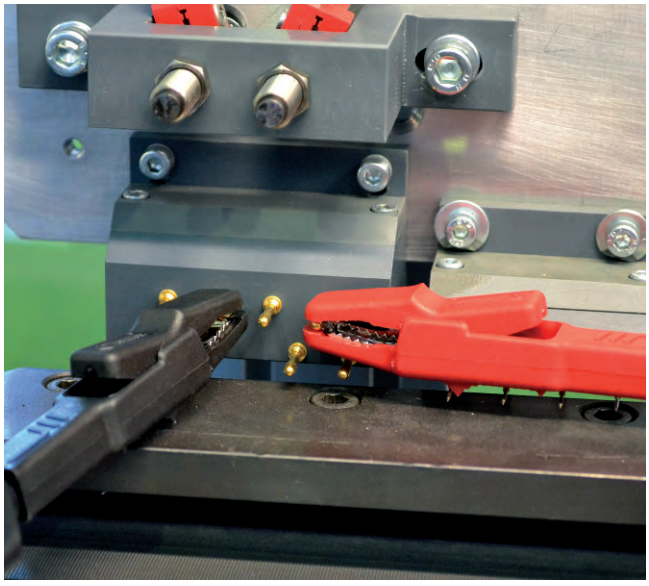
Alligator Clips

Altech Alligator clips have the proper jaw opening and grabbing strength for every application. From a Micro SMD clip for measuring smallest surface-mount components up to a 30mm (1.18in) “big mouth” a wide range of alligator clips is available.

- Various clamping ranges
- Stainless steel versions for use in galvanic and acid environments
- Soldering connections for “do it yourself” connections

“Big Mouth” AK 2B 2540 1 with wide pin opening is especially suitable for cars.

Special solution for very small SMD components MICRO-SMD CLIP 1.



Alligator Clips
0.64 and 2 mm System

Altech Corp.® by HIRSCHMANN® Test & Measurement

Type	MICRO-SMD CLIP 1	AGF 1
	Spring loaded 2 pole test clip designed for MSD components; gold plated, hardened tip; flat nose for testing individual components; insulated spring, 0.64mm connection pin terminal.	Mini alligator clip for small components, silver plated, solder/ crimp terminal max. 0.5mm².
Clamping range	0 mm to 8 mm (0.31")	1 mm (0.04")
PART NO. / Housing color	**972416100** ●	**930476001** ●

Technical Data		
Contact Type	alligator clip	alligator clip
Connection Type	2x pin 0.64 mm	solder, crimp 0.5mm²
Voltage Rating	30 VAC / 60 VDC	30 VAC / 60 VDC
Measurment Category (IEC61010)	CAT I	CAT I
Current Rating*	1 A	3 A
Contact Resistance	6 mOhm	15 mOhm
Material Specifications		
Alligator Clip	gold plated copper beryllium	silver plated brass
Housing	PBT	–
Environmental Conditions		
Temperature Range	-30 °C to +100 °C (22°F to 212°F)	-25°C to +100 °C (13°F to 212°F)
Flamability Rating		
Housing	UL 94 HB	–

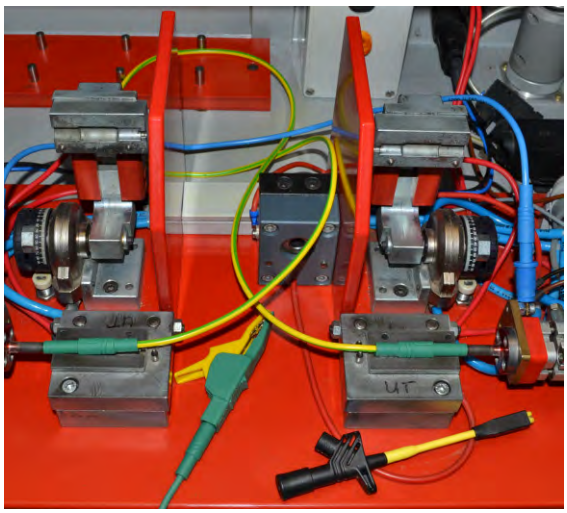
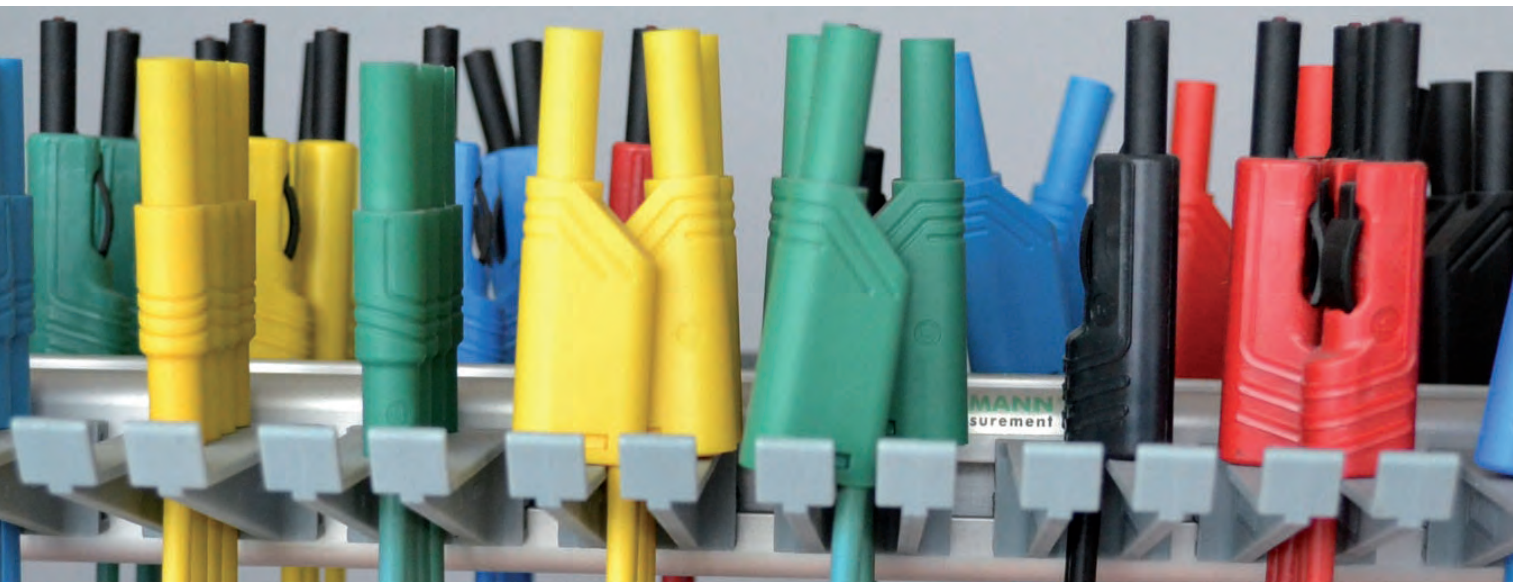
Measuring Leads

Altech Test & Measurement Leads are often exposed to extensive wear and tear and other extreme conditions. They must be robust, flexible, carry heavy loads and long lasting. Therefore they are manufactured in a closely monitored process with high quality materials.

- Wide variety of colors, length and connections
- Double insulation
- Highly flexible also at low temperatures
- Silicone version for solder resistance
- Built-in white color indicator for damage identification
- Up to 1000V CAT III
- Wire size up to 2.5mm2 for 32A
- Safety Systems
- Nickel and Gold plating





Measuring Leads
0.64 mm System

Altech Corp.® by HIRSCHMANN® Test & Measurement

Type	BNC AL 0,64	MAL N 4-0,64/100-0,25	MKL 0,64/25-0,25
	BNC adapter lead with insulated sockets for 0.64 mm round and rectangular pin. Red inner lead, black shielding; cable type RG 58 A/U, 50 Ohm. For use with oscilloscopes, PC cards, etc.	Injection-moulded measuring lead with spring loaded 4 mm diameter plug and 4 mm diameter socket for further connection and insulated socket for 0.64 mm round and rectangular pin. Highly flexible 0.25 mm² stranded wire.	Measuring lead with two insulated sockets for 0.64 mm round and rectangular pin. Highly flexible 0.25 mm² stranded wire with two 0.64 mm diameter sockets.
Cable length	1.2m (47.2") BNC + 0.1m (3.9") wires	0.1m (39.4")	25 mm

Measuring Leads
4 mm Safety System

Type	LMLH 50	TW 120 BAN
	Laboratory test lead holder with plastic brackets. Measuring leads can be laid neatly on walls, cabinets, etc. Consists: one aluminium profile rail, 30 plastic brackets, fastening kit.	SMD Test Tweezer for 2 wire measurements with multimeters. The gold-plating ensures lowest transition resistance. Available with BNC Connectors or Banana Plugs. Contacts gold-plated. Other cable lengths on request.
Cable length	–	1.2m (47.2”)

Test Plugs

Test Plugs from the inventor of the Banana Plug. Altech and SKS Hirschmann offers endless possibilities and solutions for different contact and connection systems. Various Plugs are also available for “Do it yourself” measurement leads.

- Large color spectrum
- Various connection types
- Different cross sections
- Safety plugs according to IEC61010

Test Jacks

Quick mounting and durability are 2 attributes that characterize Altech test jacks and sockets. They can be used as connecting sockets in power supplies, connecting points in service devices or test jacks in test & measurement applications and devices.

- Large variety in colors
- Tin/ nickel/ gold plating
- Screw-in and press-in versions
- Regular and spring loaded jacks/ sockets
- Up to 1000V CAT III voltage rating

Type	**SEP 2610 F4,8** Safety press-in socket, 4 mm diameter, contact-protected, with 4.8 x 0.8 tab connector complying with DIN 46 244, gold-plated brass. For rapid installation into switch panels with wall thicknesses between 1-10 mm. Installation hole: 12.2 +/- 0.1 mm diameter. Entry chamfer: 0.5 x 45 degree.	**SEP 2620 F6,3** Safety press-in socket, 4 mm diameter, contact-protected, with 6.3 x 0.8 tab connector complying with DIN 46244, gold-plated brass. For rapid installation into switch panels with wall thicknesses between 1-10 mm. Installation hole: 12.2 +/- 0.1 mm diameter. Entry chamfer: 0.5 x 45 degree.	**SEP 2630 S1,9** Gold-plated brass safety press-in socket, 4 mm diameter, contact-protected, with 1.9 mm soldering spike. For installation into switch panels with wall thicknesses between 1 mm and 10 mm. Installation hole: 12.2 +/- 0.1 mm diameter. Entry chamfer: 0.5 x 45 degree.

Test & Measurement Sets

Altech offers a variety of Test & Measurement Sets consisting of suitable components for certain System Types and specific applications. Comprehensive Service cases include extensive line of products for in-field installation, testing and service.

- 0.64 System
- 2mm System
- 4mm System
- 4mm Retracable Sleeve System
- 4mm Safety System
- Automobile Test Kit
- Service cases for Electronic or Electrical applications

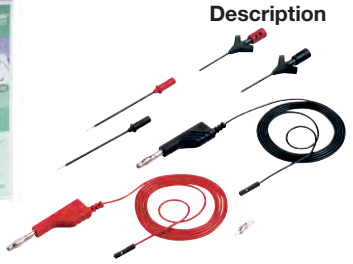
Test & Measurement Sets



Type **PMS 0.64**
PART No. **932959001**
Description Micro Test Equipment Set for SMD Components and 0.64mm systems.

1 x Plunger Style Test Probe MICRO-KLEPS black 973972100
1 x Plunger Style Test Probe MICRO-KLEPS red 973972101
1 x Test Probe MICRO-PRUEF MPS 2/0,64 FT black 973995100
1 x Test Probe MICRO-PRUEF MPS 2/0,64 FT red 973995101
1 x Alligator Clip AGF 1 930476001
1 x Measuring Lead MAL N 4-0,64/100-0,25 black 934160100
1 x Measuring Lead MAL N 4-0,64/100-0,25 red 934160101

Type **PMS 2**
PART No. **932961001**
Description Test Equipment Set for 2mm systems.

1 x Plunger Style Test Probe KLEPS 2 BU black 973501100
1 x Plunger Style Test Probe KLEPS 2 BU red 973501101
1 x Test Probe MPS 1 black 973531100
1 x Test Probe MPS 1 red 973531101
1 x Alligator Clip MA 1 black 930317800
1 x Alligator Clip MA 1 red 930317801
1 x Measuring Lead MVL 2/100 black 973596100
1 x Measuring Lead MVL 2/100 red 973596101

Type **PMS 2 S LMLH**
PART No. **975604001**
Description Laboratory Test Holder with 10 measuring leads in various colors for 2mm safety system.

1 x Test Lead Holder LMLH 973919001
2 x Test Lead MVL S WS 100/1 AU black 975696700
2 x Test Lead MVL S WS 100/1 AU red 975696701
2 x Test Lead MVL S WS 100/1 AU blue 975696702
2 x Test Lead MVL S WS 100/1 AU yellow 975696703
2 x Test Lead MVL S WS 100/1 AU green 975696704

Type **PMS 4**
PART No. **932793001**
Description Test Equipment Set for 4mm systems.

1 x Plunger Style Test Probe KLEPS 30 black 930113100
1 x Plunger Style Test Probe KLEPS 30 red 930113101
1 x Test Probe PRUEF 2 black 973368100
1 x Test Probe PRUEF 2 red 973368101
1 x Alligator Clip AK 2 S black 932146100
1 x Alligator Clip AK 2 S red 932146101
1 x Measuring Lead MLN 100/1 black 934062100
1 x Measuring Lead MLN 100/1 red 934062101

Test & Measurement Sets

Type **PMS 4 KFZ**
PART No. **933003001**
Description Test Equipment Set for Automobiles, Service and repair shops.

1 x Safety Plunger Style Test Probe KLEPS 2700 black 972307100
1 x Safety Plunger Style Test Probe KLEPS 2700 red 972307101
1 x Test Probe PRUEF 2610 FT black 972318100
1 x Test Probe PRUEF 2610 FT red 972318101
1 x Safety Alligator Clip AK 2 B 2540 I black 972405100
1 x Safety Alligator Clip AK 2 B 2540 I red 972405101
1 x Silicone Test Lead MLN SIL 150/1 black 934093100
1 x Silicone Test Lead MLN SIL 150/1 red 934093101

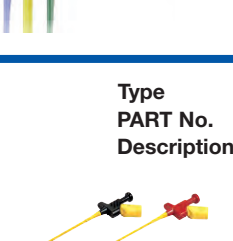
Type **PMS 4 SKS**
PART No. **932794001**
Description Test Equipment Set for 4mm systems.

1 x Measuring Lead MLN 50/1 black 934060100
1 x Measuring Lead MLN 50/1 red 934060101
2 x Measuring Lead MLN 100/1 black 934062100
2 x Measuring Lead MLN 100/1 red 934062101
1 x Measuring Lead MLN 200/1 black 934065100
1 x Measuring Lead MLN 200/1 red 934065101
1 x Plunger Style Test Probe KLEPS 30 black 930113100
1 x Plunger Style Test Probe KLEPS 30 red 930113101
1 x Alligator Clip AK 2 S black 932146100
1 x Alligator Clip AK 2 S red 932146101
1 x Test Probe PRUEF 2 black 973368100
1 x Test Probe PRUEF 2 red 973368101

Type **PMS 4 LMLH**
PART No. **972604001**
Description Laboratory Test Holder with 10 measuring leads in various colors for 4mm safety system.

1 x Test Lead Holder LMLH 973919001
2 x Test Lead MLN 100/1 black 934062100
2 x Test Lead MLN 100/1 red 934062101
2 x Test Lead MLN 100/1 blue 934062102
2 x Test Lead MLN 100/1 yellow 934062103
2 x Test Lead MLN 100/1 green 934062104

Type **PMS 250**
PART No. **932827001**
Description Sliding Sleeve Test Equipment Set for 4mm systems.



1 x Plunger Style Test Probe KLEPS 250 black 973528100
1 x Plunger Style Test Probe KLEPS 250 red 973528101
1 x Test Probe PRUEF 2 S black 973659100
1 x Test Probe PRUEF 2 S red 973659101
1 x Alligator Clip AK 2 B black 932435100
1 x Alligator Clip AK 2 B red 932435101
1 x Measuring Lead MLB 100/1 V black 973646100
1 x Measuring Lead MLB 100/1 V red 973646101

1 x Adapter MZS 2 red 973600101

Test & Measurement Glossary

Clearance Distance
Clearance Distance is the directly measured distance between two conducting parts, acts as an insulator and should be dimensioned according to IEC 61010.

Contact Material
Contact Material is the base Material of the part.

Contact Resistance
Contact Resistance is the resistance measured between the connections of connected contact parts. It consists of resistivity and contact-circuit resistance. Given values are according to DIN EN 60512.

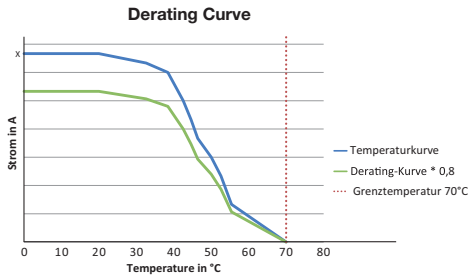
Contact Surface Material
Contact Surface Material is the material on the surface of the electrical contact. For Test & Measurement purposes special nickel or gold plating is used for ideal electrical and mechanical conditions.

Creepage Distance
Creepage Distance is the shortest path between two conductive parts (or between a conductive part and the bounding surface of the equipment) measured along the surface of the insulation. It is defined in IEC 61010.

Pollution Degree Rating
The pollution degree is the numerical index of the degree of pollution that can exist in the environment.
IEC/EN 61010-031 defines 3 Pollution Degrees:

Pollution Degree 1: No pollution or only dry, non-conductive pollution occurs. The pollution has no influence.
Example: Inside closed pieces of equipment.
Pollution Degree 2: Normally only non-conductive pollution occurs. Occasionally, however, a temporary conductivity caused by condensation is to be expected. Examples: Laboratory, light industry.
Pollution Degree 3: Conductive pollution occurs, or dry non-conductive pollution, which becomes conductive due to condensation, is to be expected. Examples: Heavy industry, short service outdoors.

Derating Curve
According to the derating Curve (load reduction curve acc. to DIN EN 60512-5-2), the operating current at higher ambient temperatures is reduced. The current loading capacity of measurement accessories is limited by the thermal load-bearing capacity of the contact material or insulating parts and by the upper temperature limit of measurement accessories acc. to IEC 61010. Therefore, the derating graph applies as a function of environmental temperature to currents that may continuously pass through each contact element without exceed the upper temperature limit.



The derating graph describes the relation between currents, thereby caused increase of temperature (power loss on contact resistance) and environmental temperature of the measurement accessory. The Graph ends with the upper temperature limit of the measurement accessory.
Upper temperature limits for measurement accessories are according to IEC 61010:
Non-metallic Material 70C (158F), Metallic Material 55C (131F)

GRAPH from Hirschmann Catalog

Handle Area
The Handle Area is the area in which the user can touch a measuring device during operation without being exposed to electrical currents.

IEC 61010-31
Title of the IEC/EN 61010:
“Safety requirements for electrical equipment for measurement, control and laboratory use”

Part 031:
“Safety requirements for hand-held probe assemblies for electrical measurement and test”
All products of the Hirschmann Test & Measurement Range are designed and approved according to this standard.

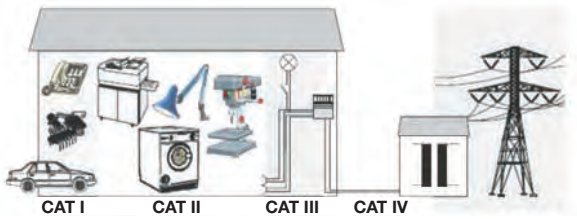
Insulation
Basic insulation - is the insulation applied to live parts to provide basic protection against electric shock, eg. the failure of the basic insulation could cause the risk of electric shock.

Double insulation - Insulation comprising both basic insulation and supplementary insulation.

Reinforced insulation - Insulation which provides protection against electric shock not less than that provided by double insulation.

Measurement Categories acc. to IEC 61010-031
To facilitate the assignment of test accessories to the appropriate applications, standard IEC 61010-031 has established a number of categories which define where they can be used in the power supply network and to lay down appropriate requirements for each category.

In standard EN 61010-031 there are four different test categories, abbreviated “CAT”. The category CAT followed by a number from I to IV is stated in our catalog with the rated voltage. As a general rule, the higher the CAT rating, the higher the safety requirement that applies to the product.



CAT I
Applies to test objects that are not connected to the mains. E.g. electronic devices, batteries, etc. in which only minor over voltages occur.
CAT I will also include all test objects that cannot be assigned to CAT II toCAT IV.
CAT II
Applies to measurements on equipment that is connected to the mains or supplied from the mains without constituting a part of the mains installation. Electrical equipment between appliance and power socket, or inside electrical equipment such as domestic appliances.
CAT III
Applies to measurements inside the house or building installation. Installations in buildings, contactors, protective devices, switches, power sockets (Electricians).
CAT IV
Applies to measurements at the supply source of the installation (input side). Secondary side of medium-voltage transformers, electricity meters, cable networks, connection to overhead lines (employees of power distribution companies).

Current Rating
The rated current is the current which the test & measurement devices can carry continuously without the temperature exceeding the upper limit.

Voltage Rating
Voltage Rating is the voltage at which the product can be used safely, if used properly. The specified rated voltage always relates to Pollution Degree 2. Each Voltage also refers to the appropriate Measuring Category.

Safety Color Indicator
All the measuring leads of the 2 mm & 4 mm safety system have a safety colour indicator. The cable insulation consists of two separated insulation layers. The first layer is directly installed on the conductor and it is white in all measuring leads (except of white ones >red colour indicator). In a subsequent manufacturing stage, a second insulation layer is applied in the respective cable colour. If the insulation is damaged while using the measuring lead, the first insulating layer becomes visible. For safety reasons, the lead should be immediately replaced with a new SKS measuring lead.

Sliding Sleeve System
The Sliding Sleeve System has a retraceable protective insulation to avoid short circuits and electric shocks while not connected. It is not allowed to use this system for dangerous voltages during use. Adapter test leads for the connection to equipment that (still) cannot take fully insulated plugs are an exception. For this reason the Sliding Sleeve System is classified according to IEC 61010, CAT I up to 60V.

Temperature range (environmental conditions)
The temperature range is the allowed range in which the products may be used without damaging the materials.

Voltage details
The voltage details for the products mentioned in the catalog indicate the voltage range for which they can be used. SKS has designed the entire 2 mm & 4 mm safety system, unless otherwise specified, for 1,000V, Measurement Category III (CAT III) with Pollution Degree 2. The largest range of measuring tasks in the higher voltage range is safely covered.

Terms & Conditions

TITLE - Title to the products of ALTECH shall remain with ALTECH until payment is made in full by Customer. Such reservation of title is for the purpose of securing the purchase price and shall not relieve Customer of the duty to inspect the products upon receipt, to notify ALTECH of any deficiencies or defects, and to exercise due care in the use, installation, operation, and maintenance of the products when on the premise of the Customer or under the control of the Customer. Notwithstanding any reservation of title by ALTECH, risk of loss shall pass to customer at any time of shipment.

SHIPMENT AND DELIVERY - All orders for destination in the mainland United States (less Hawaii, Alaska and non-continental United States possessions) will be shipped F.O.B. Flemington, N.J. All destination, shipping and other charges shall be paid by the Customer in accordance with ALTECH's then current shipping and billing practices.

Delivery dates given in the acceptance of any order are approximate. ALTECH shall not be liable for delays in delivery or in performance due to causes beyond its reasonable control including acts of God, acts of Customer, acts of civil or military authority, fires, strikes or other labor disturbances, war, riot or delays in transportation. In the event of such delay, the date of delivery or performance shall be extended for a period equal to the time lost by reason of the delay.

PRICE - PRICES in any ALTECH publication are subject to change without prior notification. Catalog prices are based on prices published in the current price list. All written quotations are valid for thirty (30) days from the date of quotation. Customer shall pay all sales, use, excise or similar taxes whenever ALTECH must itself pay and/or collect such tax from Customer arising out of the sale.

PAYMENT - Customer agrees to make payment within thirty (30) days of date of the invoice from ALTECH. Customer agrees to pay a late payment charge of one and one-half percent (1.5% per month, or the maximum late payment charge permitted by applicable law, whichever is less, on any unpaid amount for each calendar month (or fraction thereof) that such payment is in default. Orders amounting to less than $100.00 will be billed at $100.00 plus freight. Full carton purchases are required. In the event of referral to an attorney for collection, reasonable attorney's fees for collection of the overdue amount shall be paid by Customer. In the event payment is not received within 30 days from the date of invoice, any discount shall be cancelled and the full list price will be due.

LIMITED WARRANTY - ALTECH warrants to Customer that the equipment purchases shall be free from defects in material and workmanship under normal use and service for a period of one year from shipment.

Written notice as an explanation of the circumstances of any claim that the equipment has proved defective in material or workmanship shall be given promptly by the Customer to ALTECH.

ALTECH will not be liable for any misuse, improper operations, improper installation, improper maintenance, alteration, modification, accident or unusual degradation of the equipment or parts due to an unsuitable installation environment.

No representation of other affirmation of facts, including but not limited to statements regarding capacity, suitability for use or performance of the equipment, shall be or be deemed to be a warranty or representation by ALTECH for any purpose, nor give rise to any liability or obligation of ALTECH whatsoever.

Customer's sole and exclusive remedy in the event of breach of warranty, as set forth herein, is expressly limited to (1) the correction of the defect by adjustment, repair, modification, or replacement, or (2) issuance of a credit or refund of the purchase price for the defective equipment at ALTECH's election and sole expense.

EXCEPT AS SPECIFICALLY PROVIDED IN THIS AGREEMENT, THERE ARE NO OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

THIS WARRANTY EXTENDS ONLY TO THE CUSTOMER FROM ALTECH OR ITS AUTHORIZED DISTRIBUTOR.

LIMITATION OF LIABILITY - IN NO EVENT, SHALL ALTECH BE LIABLE FOR LOSS OF PROFITS, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER SIMILAR DAMAGES ARISING OUT OF ANY BREACH OF THIS AGREEMENT OR OBLIGATIONS UNDER THE AGREEMENT.

ALTECH SHALL NOT BE LIABLE FOR ANY DAMAGES CAUSED BY DELAY IN SHIPMENT, INSTALLATION OR FURNISHING OF EQUIPMENT OR SERVICES UNDER THIS AGREEMENT.

No action arising out of any claimed breach of this Agreement may be brought by either party more than two (2) years after the cause of action has accrued.

PATENT INDEMNITY - ALTECH shall defend or settle any suit or proceeding brought against Customer based on a claim that any equipment made to ALTECH design and furnished hereunder constitutes an infringement of any existing United States patent, provided (ALTECH) is notified promptly in writing and is given complete authorization and information required for the defense, and ALTECH shall pay all damages and costs awarded against Customer, but shall not be responsible for any costs, expense or compromise incurred or made by Customer without ALTECH's prior written consent. If any equipment is in ALTECH's opinion likely to or does become the subject of a claim for patent infringement, ALTECH may at its option and expense procure for Customer the right to continue using the device, modify it to become non-infringing, but in the event ALTECH is not reasonably able to modify, substitute, or otherwise procure for Customer the right to continue using it, ALTECH will remove such equipment and refund to Customer the amount paid in excess of a reasonable rental for past use.

ALTECH shall not be liable for any infringement or claim based upon use of the equipment in combination with other equipment not supplied by ALTECH or with modifications made by Customer.

The foregoing states the entire liability of ALTECH to Customer arising from patent infringement.

SELLER'S REMEDIES - Should Customer fail to make any payment within ten (10) days of its due date, or fail to perform any other of the Customer's obligation hereunder upon thirty (30) days written notice, or should Customer be or become insolvent or be a party to any bankruptcy receivership proceeding prior to full payment of all amounts payable hereunder, ALTECH may: (a) with or without demand or notice to customer declare the entire amount unpaid immediately due and payable; (b) enter upon the premises where the equipment may be found and remove it (Customer shall assemble the equipment and make it available to ALTECH at a place reasonably convenient to both parties and shall permit and assist ALTECH in effecting the retaking and removal of the equipment); and (c) sell any or all the equipment as permitted under applicable law, applying the proceeds of the sale to payment of the expenses of retaking, repairing and selling the equipment, reasonable attorney fees and to the satisfaction of all indebtedness then due and unpaid under this Agreement. Any surplus shall be paid to Customer and any deficiency shall be paid to ALTECH by Customer.

The remedies provided herein shall be cumulative and in addition to all other remedies provided by law or equity or under the Uniform Commercial Code.

GOVERNING LAW - This agreement will be governed by the Laws of the State of New Jersey.

GENERAL - This Agreement shall only become effective and binding when either (a) it has been accepted and executed by an authorized representative of ALTECH, or (b) the equipment has been shipped to Customer, with or without acceptance in writing hereon. Notice of acceptance is hereby waived by Customer. Customer hereby acknowledges receipt of a true and complete copy hereof.

No addition to or modification of any of the Terms and Conditions of Sale as they appear herein shall be binding upon ALTECH unless signed in writing by duly authorized representative of ALTECH in Flemington, N.J.

Typographical and clerical errors in quotations, orders and acknowledgments are subject to correction.

This Agreement is not assignable without the prior written consent of ALTECH. Any attempt to assign any of the rights, duties or obligations of this Agreement without such consent is void.

If any provision or provisions of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability, of the remaining provisions shall not in any way be affected or impaired thereby.

ALTECH is not responsible for failure to fulfill its obligation under this Agreement due to causes beyond its control, or except as agreed herein.

THE CUSTOMER ACKNOWLEDGES THAT HE HAS READ THE AGREEMENT, UNDERSTANDS IT, AND AGREES TO BE BOUND BY ITS TERMS AND CONDITIONS. FURTHERMORE, THE CUSTOMER AGREES THAT IT IS THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN THE PARTIES, WHICH SUPERSEDES ALL PROPOSALS OR PRIOR AGREEMENTS, ORAL OR WRITTEN, EXPRESSED OR IMPLIED, AND ALL OTHER COMMUNICATIONS BETWEEN THE PARTIES RELATING TO THE SUBJECT MATTER OF THIS AGREEMENT.

Some Other Altech Prodcuts

Circuit Protection Devices

Altech the market leader in UL508 Manual Motor Controllers/ Miniature Circuit Breakers now introduces UL489 Miniature Circuit Breakers and UL1077 Supplementary Protectors. The UL489 versions are DIN rail mounted, 17.5mm wide, thermal magnetic, 240V, 480Y/277V AC, 50/60Hz, 125 and 250 VDC models, with short circuit interrupt capacity of 10kA, a positive trip indicator, and are line/load reversible. The UL1077 versions are DIN rail mounted, 17.5mm wide, thermal magnetic, 480Y/277V AC, 50/60Hz, a short circuit withstand capacity 10kA, have a positive trip indicator.
