

4G GSM & GPS Combo Antenna

+4dBi Adhesive Flexible

Features

- Mini Self Adhesive Patch Antenna
- 700/960-1800/2700MHz/1575.42MHz
- Gain: +4dBi
- Linear Polarization
- VSWR = <1.5
- 50ohm Impedance
- Max Power 10w
- 15cm 1.13 mini Coax to UFL
- Flexi PCB Thickness 0.3mm
- 3M adhesive sticker on Rear
- Operating temp -10 to +70°C

Applications

- Embedded GSM/GPS
- Space Saving Applications

Description

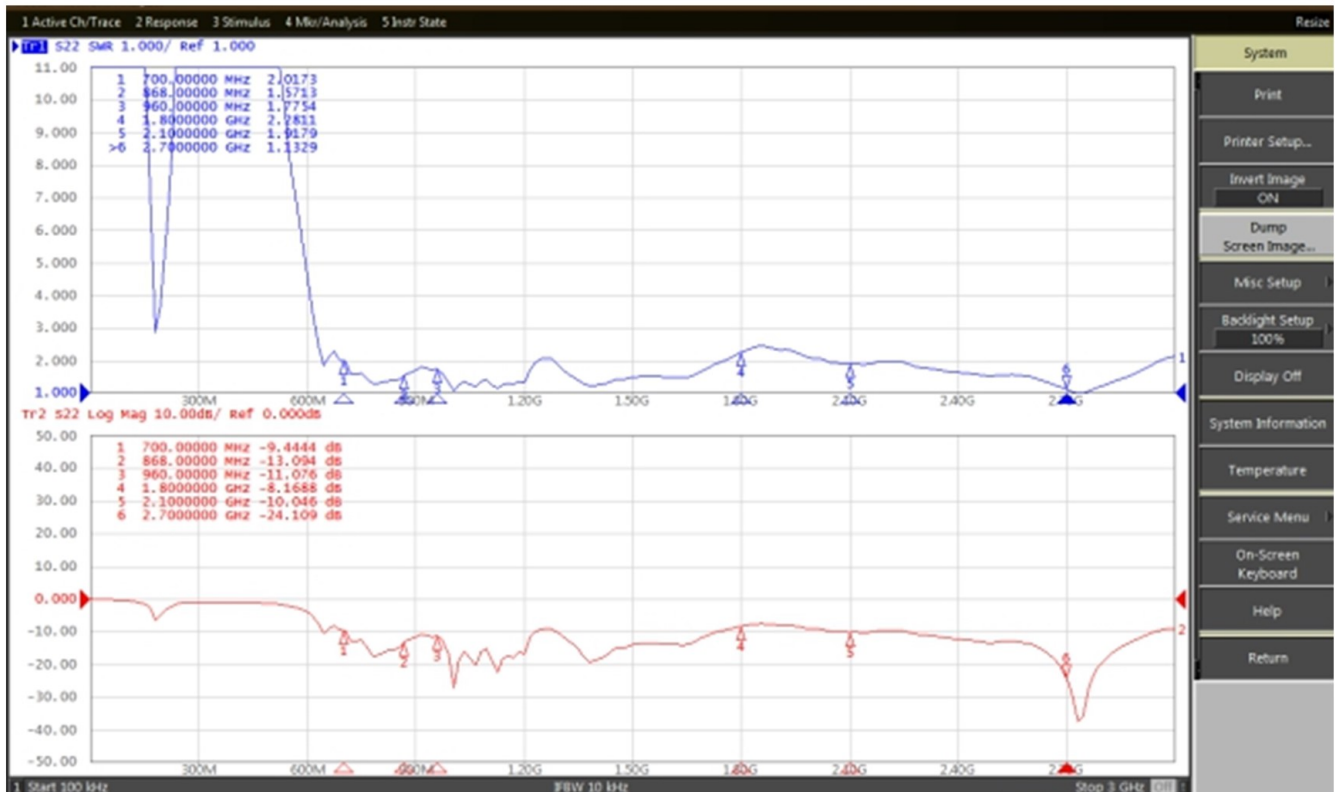

A compact PCB Antenna for applications requiring GSM Cellular and GPS combined where high performance is required from a small size.

Part Number

Part Number	Description	Cable Length
ANT-GP4G-FPCB7219-2UFL	4G and GPS Combo Flexi Adhesive PCB antenna 72x19mm +4dBi	15cm
