

## Three-pole IEC Class II surge arrestors for TN-C systems

### Optional remote contact signaling

The three-pole terminal remote contact signaling option has a floating changeover contact for use as a break or make contact, according to circuit concept.

### Specifications:

#### System volts

- 120
- 230

#### System types

- TN-C

#### Agency information

- CE
- KEMA
- RoHS compliant

#### Mounting

- 35mm DIN-Rail

#### Warranty

- Five years

### Catlog symbols:

- BSPM\_TNC
- BSPM\_TNCR

### Description:

Eaton's Bussmann™ series three-pole IEC Class II modular surge arresters for TN-C systems feature local *easyID™* visual status indication and optional remote contact signaling. The unique module locking system fixes the protection module to the base. Modules can be easily replaced without tools by simply depressing the release buttons. Integrated mechanical coding between the base and protection module ensures against installing an incorrect replacement module.

MCOV rating are 150V for 120 volt models and 275V or 385V for 230 volt models.

#### TNC System Arresters

The features of these three-pole devices are for use in TN-C 120/240 volt or 230/400 volt systems ("3-0" circuit) against surges.
