

MOLLY

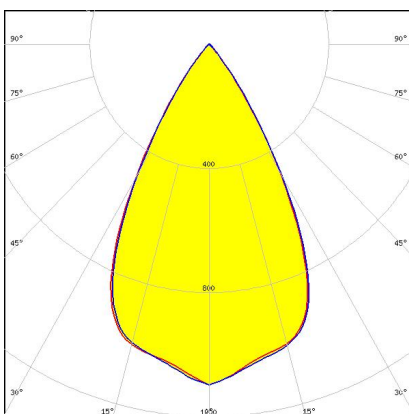

Ø70 mm lenses with smooth cutoff for track- and spotlights and Zhaga compliant bayonet mounting compatible with up to 19 mm LES size COBs

MOLLY represents LEDiL's cutting-edge optical lens design taking full advantage of bigger size COBs. A solid rugged PMMA construction locks straight into sockets and connectors with no need for extra holders. Uniform illuminance with flat top peak, no spill light and perfect design for cylinder type track lights makes MOLLY an excellent choice for professional indoor lighting. Compatible with LEDiL clamps and 3rd party 3-hook fastening solutions (Molex, TE, Bender&Wirth).
