

## Evaluation Kit

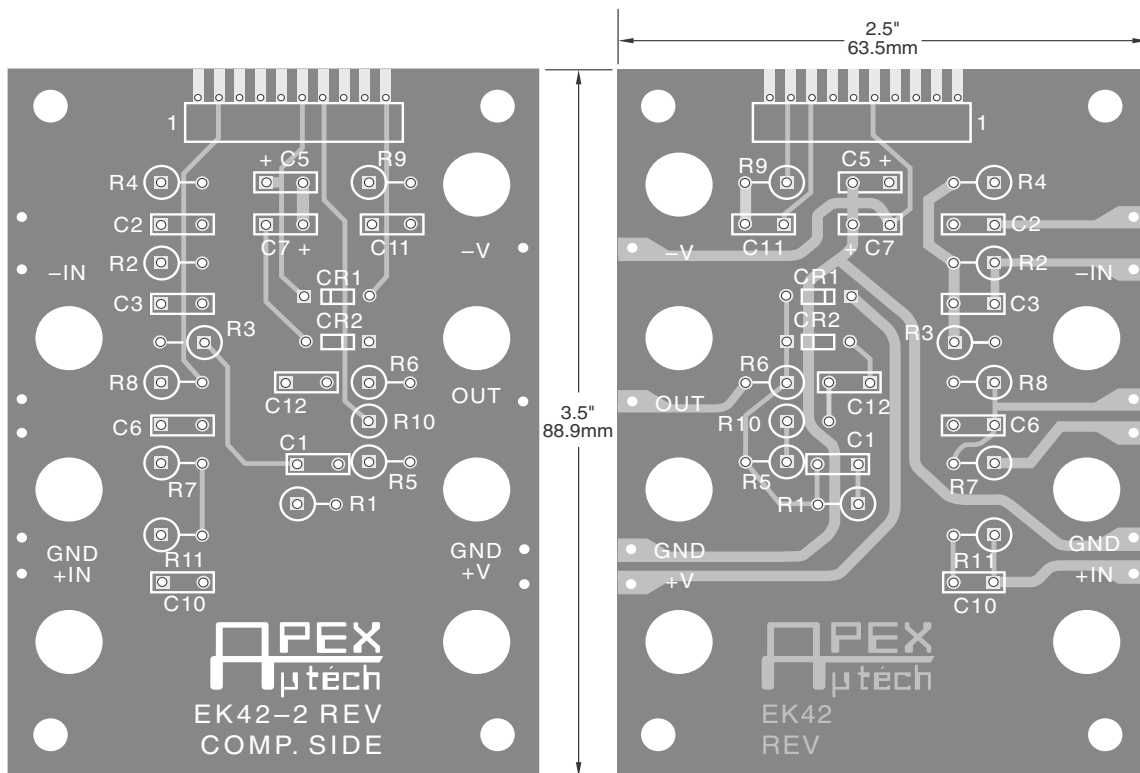

### APPLICABLE PARTS (SOLD SEPARATELY)

- PA15FL
- PA341DW
- PA441DW Pin-Outs

### INTRODUCTION

Fast, easy breadboarding of circuits using the PA341DW and PA441DW and the PA15 are possible with the EK42 PC board. Mounting holes are provided and the provision for standard banana jacks simplifies connection and testing. The amplifier may be mounted horizontally or vertically components are labeled on both sides of the board for ease in probing.
