

### Features

- True sine wave output (THD<3%)
- High surge power up to 1000W
- High efficiency up to 88%
- High frequency design
- Thermostatically controlled cooling fan
- Protections: Bat. low alarm / Bat. low shutdown / Over voltage / Over temp. / Output short / Input polarity reverse / Overload
- Built-in 500W MPPT solar charger, MPPT efficiency:98%(Typ.)
- Built-in remote ON-OFF control
- Built-in battery low relay contact
- LED indicator for operation status and battery capacity
- 3 years warranty

### Applications

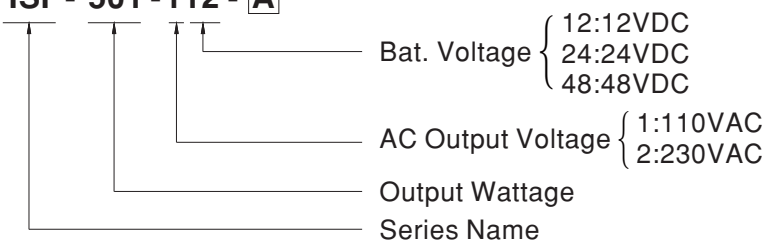

- Home appliance
- Power tools
- Portable equipment
- Yacht
- Vehicle

### Description

ISI-501 series integrates a DC/AC True Sine Wave Inverter and a MPPT charger. This series is a high performance true sine wave DC/AC inverter which converts the DC electricity from a system consisting of batteries and solar panels. ISI-501 is not only a high frequency designed inverter but also fully digitally controlled by an advanced microprocessor. With true sine wave output, ISI-501 series can provide 500W continuously, 550W for 60 seconds, and 1000W for 30 AC-cycles. This series incorporates a MPPT solar charger, including the constant current and constant voltage charging characteristics.

### Model Encoding

ISI - 501 - 112 - A

AC Output Receptacle

- A :TYPE A OUTLET
- B :TYPE B OUTLET
- C :TYPE C OUTLET
- D :TYPE D OUTLET
- F :TYPE F OUTLET
- U :TYPE U OUTLET

		<b>EMC EMISSION</b>	Compliance to FCC part 15 class B, EAC TP TC 020			Compliance to BS EN/EN55032 class B, EAC TP TC 020		
	OTHERS	<b>EMC IMMUNITY</b>	Compliance to EAC TP TC 020			Compliance to BS EN/EN61000-4-2,3,8, EAC TP TC 020		
		<b>MTBF</b>	57.8K hrs min. MIL-HDBK-217F (25°C)					
		<b>DIMENSION</b>	205*158*67mm (L*W*H)					
	<b>PACKING</b>	2.35Kg; 6pcs/15.1Kg/1.55CUFT						
NOTE	<p>1. THD is tested by rated power, linear load at 13V,26V,52V input voltage.                  2. Efficiency is tested by 350W, linear load at 13V,26V,52V input voltage.                  3. The tolerance of each voltage value by models is : 112/212 → ±0.5V ; 124/224 → ±1V ; 148/248 → ±2V.                  4. Output derating capacity referenced by curve 1.                  5. Input derating capacity referenced by curve 2.                  6. All parameters not specified above are measured at rated load, 25°C of ambient temperature and set to factory setting.                  7. DC current is tested by 500W, linear load at 12V,24V,48V input voltage.                  8. The ambient temperature derating of 3.5°C/1000m with fanless models and of 5°C/1000m with fan models for operating altitude higher than 2000m(6500ft).                  9. Type F for 60Hz only.</p>							

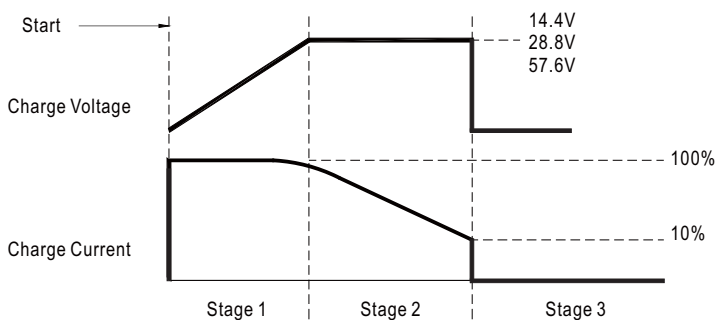

### Block Diagram

### Derating Curve

### Charging Curve

- Stage 1 : Constant Current
- Stage 2 : Constant Voltage
- Stage 3 : MPPT Charger OFF

\*Constant current condition : Dependent on solar input current and MPPT voltage of solar panel.

\*MPPT charger OFF condition: Charge current less than 10% rated charge current and solar input power under 50W.
