

HORIZONTAL COMPACT SHORT-SWING LIQUID LEVEL SENSORS

LCS Series

High or low level switching

N.O./N.C. SPST output

Mounted on the side wall of a tank

Certified reed switch (UL component listed)

Body material is acetal and float is polypropylene

Features

- Voltage rating up to 250VAC
- Current rating up to 1.0 amp
- Compact design and low profile
- Cable or integrated connector
- Rapid Push Fit Installation
- EPDM Sealing Grommet

Applications

- Water storage tanks
- Full and/or empty detection
- Pump on/off controls
- Marine bilge and ballast tanks
- Flood detection and prevention
- Coolant level indication
- Livestock watering tanks
- Irrigation systems
- Water treatment plants

The LCS series of point liquid level switch demonstrates a high degree of reliability due to the use of non-reactive wetted components and a unique reed switch designed specifically for level sensing applications. The sensor utilizes a moving float with an embedded magnet to activate a reed switch located in the sensor body. As the liquid level raises the float, it moves a magnet into close proximity of the reed switch and actuates it to give an open contact or closed contact switch indication.

The reliability of this sensor results from a very simple operating principle, a single moving part, media compatible wetted materials, and a unique reed switch design that has a UL recognized component certification.

The sensor quickly mounts into the side wall of a liquid storage tank using a unique push fit design. This is an external configuration. The output is a simple N.O. or N.C. SPST reed switch that utilizes Ruthenium contact points for reliability. Changing from a N.O. output to a N.C. output is done by rotating the switch 180° in the mounting hole. This change can be done in the field. Electrical outputs are a single pair of wires with PVC insulation and a length of 0.5m, or one of three optional integrated connector designs.

LIQUID LEVEL SWITCH

LCS Series

Absolute Maximum Ratings⁽¹⁾

Parameter	Min	Max	Units	Notes/Conditions
DC contact voltage		200	V	For LCS-01 only Do not exceed 40W
DC contact current		1.0	A	
RMS contact voltage		250	V	
RMS contact current		1.0	A	
DC contact voltage		48	V	For LCS-02, -03, -04 only Do not exceed 40W
DC contact current		1.0	A	
Storage and operating temperature	-30	60	°C	
Fitting pressure	-1.0	0.34	Bar	Internal tank pressure

⁽¹⁾Maximum limits the device will withstand without damage

Product Specifications

Parameter	Details & Options	
Mounting Orientation	Side entry	
Fitting	External push fit grommet	
Switch Operation	N.C. when float is horizontal	
Contact Forms	Form A (SPST)	
Contact Material	Ruthenium	
Contact resistance (max)	140 mΩ	
Housing Material	Acetal/polypropylene	
Float Material	Foamed polypropylene	
Cable Description	22 AWG 16/0.2mm PVC insulated, UL/CSA/BS6361 (model LCS-01)	
Integrated Connector Design Equivalent to:	LCS-02	TE Connectivity Econoseal 3 P/N 344274 Mating connector – TE Connectivity P/N 344276-1
	LCS-03	Delphi Packard 150 Series Mating connector – Delphi Packard P/N 15336024
	LCS-04	Yazaki 090 W/P 2P male
Shock	±50g 11ms half sign duration	
Vibration	±35g 0 – 500Hz	
Ambient Humidity	0 – 95% RH (non-condensing)	
Ingress Protection	IP68 (wetted surfaces) IP65 (non-wetted surfaces)	
Approvals & Certifications	UL file E98428
