

70/370 SERIES CONNECTORS: QPL'D TO MIL-C-49142

MIL-C-49142 Qualified Products List...

Trompeter has always been a leader in twinax connector design and development. This time we've designed a new style connector to meet the requirements of MIL-C-49142, Category G. Trompeter is the only manufacturer to be qualified to category G. What is category G? Category G is the section of the Mil-Spec that requires tool crimping of the TRB (70) series connectors. We are also qualified to category A which is for wrench crimp TRB connectors.

The following is the latest list from Defense Electronic Supply Center (DESC) of qualified Trompeter Electronic's parts. Keep this list handy and make as many copies as needed. Ordering QPL'd parts must be ordered by the *Mil-number*. Many of Trompeter's 70 Series concentric twinax connectors are QPL'd to MIL-C-49142. QPL'd versions are silver plated and can be ordered using *Government Designation part numbers listed*. Corresponding standard nickel plated connectors can be ordered using the standard part numbers.
