

# HEB breakaway and non-breakaway in-line fuse holders for UL 13/32" x 1-1/2" supplemental fuses

**Catalog Symbol:** HEB\*

**Description**

The Bussmann™ series of HEB submersible, single-pole in-line fuse holders for UL 13/32" x 1-1/2" supplemental fuses. Available in non-breakaway and breakaway versions with an array of terminal options to meet application needs. Breakaway versions come with insulating boots to provide submersibility per UL IP67. Non-breakaway versions require ordering optional insulating boots for submersibility.

**Recommended fuses**

BAF, FNM, FNQ, KLM and KTK

**Ratings**

Volts: 600 V

Amps: up to 30 A limited by conductor size

Withstand: 200 kA RMS Sym.

**Agency information**

UL® Recognized, Guide IZLT2, File E14853

CSA® Certified, Class 622501, File 47235

CE, RoHS compliant†

**Coupling nut torque**

10-20 lb-In (1.1-2.2 N•m)

**Operating and storage temperature**

-40°F (-40°C) to 221°F (105°C)

**Insulating boots**

Two insulating boots come standard with the breakaway holder configurations. Insulating boots are not included as standard with non-breakaway holders. Two insulating boots must be ordered separately, if required, for each non-breakaway holder ordered. When insulating boots are utilized, extra heat retention requires that fuses are sized at a minimum of 200% of the RMS load current.

**Use these part numbers to order insulating boots for a non-breakaway HEB holder**

Description	Catalog no.
Single conductor	2A0660
Dual conductor	2A0661

**Boot reference**

**Installation instructions**

Strip wire insulation equal to the depth of the crimp or screw terminal. Torque screw terminal to 35 lb-In (3.9 N•m) or crimp terminal twice, spacing crimps a distance of one-third from each end (as shown below) using an appropriate crimp tool and die. See page 5 for recommended crimping tools.

\* The Bussmann series HEB in-line fuse holders are the legacy Bussmann TRON™ HEB in-line fuse holders.

† See terminal data tables for exceptions.

Non-breakaway catalog number system

To order:

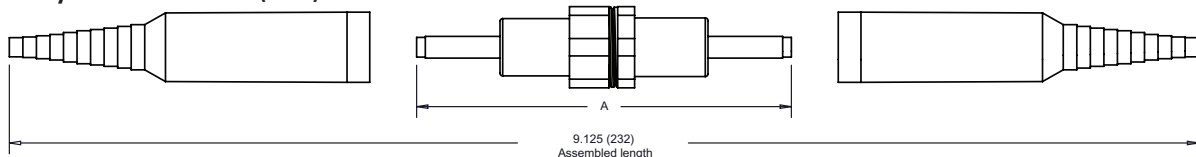

Specify catalog symbol HEB and the loadside terminal code. Then select a lineside terminal code that is available with the loadside terminal. Example: HEB-BB defines a non-breakaway holder with a loadside copper crimp terminal for a single #6 or two #10 wires with a lineside copper crimp terminal for a single #6 or two #10 wires.
