Product Description	The 1U RapidNet Hybrid Panel provides a simple 'Mix and Match' approach for both copper and fiber RapidNet. The panel offers capacity for the equivalent of 1U of fiber and 1U of copper in 1U of rack space, giving a saving of 1U of space each time the panel is used. The panels allow for a combination of 12 port high density copper RapidNet and 12 or 24 core fiber (direct terminated or MTP) or high density copper and RapidNet MTP VHD for up to 288 fibers. There are two configurations available.
