

FIBRE OPTIC SENSOR FOR DIN RAIL MOUNTING

- 10 bit resolution models with 500 μ s response for high operating distances
- 12 bit resolution models with 50 μ s response and 4 digit display for high speed
- Cost-effective models with multiturn trimmer adjustment
- EASYtouch™ push-button setting with remote control, keylock and output delay
- Ultra-thin housing with CLEARLOCK™ patented fibre fixing system

the 1st in Europe

S7 SERIES

The **S7** series is the first fibre optic amplifier to be manufactured in Europe that is equipped with a full 4 digit display, confirming Datasensor's technological leadership. With its slim 10mm body width, the **S7** represents the ideal solution for all applications requiring high accuracy sensing combined with very compact dimensions.

The high resolution 12 bit amplifier has a response time of 50 μ s for a switching frequency of 10 KHz; 4096 resolution steps make the **S7** series perfect for ultra high precision detection of small objects and low colour contrasts.

This is made easier by the integral 4 digit display, which clearly indicates the received signal, selected time delay and the adjustable set point values. Moreover, the white light LED emission possibility enhances the contrast detection.

Installing and setting the **S7** is easy and rapid, thanks to the patent-covered CLEARLOCK™ fibre fixing and EASYtouch™ adjustment system that offers remote setting, keylock and activation of the output OFF delay function.

Furthermore new versions of the **S7** series are available with multiturn mechanical trimmer threshold adjustment for cost-oriented applications.

S7 FIBRE-OPTIC SENSORS

The ultra-thin housing is specifically designed for side-by-side mounting on DIN rail where space is limited or mounting through two M3 clearance holes onto the side of a machine. The **CLEARLOCK™** fibre-optic fixing system assists reliable insertion of standard and high performance 2.2mm Ø fibre-optics. The **EASYtouch™** one touch setting procedure automatically selects the best detection conditions. For critical applications a two touch setting is provided for fine tuning. S7 benefits from remote teach, keypad lock and delay off timing functions. For further information on our extensive range accessories please see our OF and OFA fibre optic datasheet.

DIMENSIONS

CLEARLOCK™

INDICATORS AND SETTINGS

- A** OUTPUT status and READY/ERROR LEDs
- B** Teach-in push-button
- C** M8 connector output
- D** Cable output
- E** 4 digit display
- F** STATUS signalling LEDs
- G** OUTPUT status LED
- H** '+' e '-' buttons (ADJUST/MENU)
- I** Fibre lock/unlock button
- J** Multiturn trimmer

Teach-in button for setting.
EASYtouch™ provides two setting modes: standard or fine.
 Please refer to instructions manual for operating details

ACCESSORIES

For dedicated accessories refer to the **ACCESSORIES** section of this catalogue

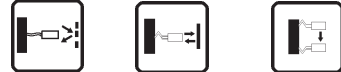

Refer also to **Fibre-Optics, Connectors** and **Fixing brackets** of the General Catalogue

CONNECTIONS

* NC OUTPUT for S7-7/8 models

TECHNICAL DATA

		S7-1-E	S7-2-E	S7-3-E	S7-4-E	S7-5-E	S7-6-E	S7-7-E	S7-8-E
Proximity operating distance:	0 ... 100 mm (normal mode)								
	0 ... 50 mm (fast mode)								
	0 ... 25 mm (fast and normal mode)								
Through beam operating distance:	0 ... 300 mm (normal mode)								
	0 ... 150 mm (fast mode)								
	0 ... 75 mm (fast and normal mode)								
Power supply:	12 ... 24 Vdc ± 10 % ¹								
Consumption:	≤ 50 mA								
Light emission²:	red LED 670 nm								
	white LED 460 ... 630 nm								
Setting:	teach-in SET button								
	remote via cable ³								
	'+' '−' buttons (ADJUST/MENU)								
	12-turn trimmer								
Digital setting :	EASytouch™ or fine								
Digital resolution:	12 bit (4096 points)								
	10 bit (1024 points)								
Indicators:	yellow OUTPUT LED								
	green / red READY / ERROR LED								
	4 digit display, status bar								
Output type:	PNP, NO (see table)								
	NPN, NO (see table)								
Output current:	≤ 100 mA								
Saturation voltage:	≤ 2 V								
Response time:	500 μs (normal mode)								
	100 μs (fast mode)								
	50 μs (fast mode)								
Switching frequency (max.):	1 kHz (normal mode)								
	5 kHz (fast mode)								
	10 kHz (fast mode)								
Operating mode:	light with EASytouch™ or trimmer								
	automatic dark / light with fine acq.								
Timing function:	20 ms minimum output ON								
Auxiliary functions:	remote ⁴								
	keylock								
Connection:	2 m Ø 4 mm cable ⁵								
	M8 4-pole connector								
Electrical protection:	class 2								
Mechanical protection:	IP50								
	IP65								
Electrical protection device:	A, B ⁶								
Housing material:	ABS								
Weight:	30 g max.								
	115 g max.								
Functioning temp.:	-10 ... +55°C								
Storage temp.:	-10 ... +70°C								
Reference standard:	EN 60947-5-2								

SELECTION TABLE

fibre-optic sensor with display - 2 m cable		
S7-1-E-N	950551080	NPN
S7-1-E-P	950551090	PNP
S7-2-E-N	950551000	NPN
S7-2-E-P	950551010	PNP
fibre-optic sensor without display - 2 m cable		
S7-3-E-N	950551040	NPN
S7-3-E-P	950551050	PNP
fibre-optic sensor with display - M8 connector		
S7-4-E-N	950551100	NPN
S7-4-E-P	950551110	PNP
S7-5-E-N	950551020	NPN
S7-5-E-P	950551030	PNP
fibre-optic sensor without display - M8 connector		
S7-6-E-N	950551060	NPN
S7-6-E-P	950551070	PNP
fibre optic sensor with trimmer - 2 m cable		
S7-7-E-P	950551120	PNP
S7-7-E-N	950551130	NPN
fibre optic sensor with trimmer - M8 connector		
S7-8-E-P	950551140	PNP
S7-8-E-N	950551150	NPN

TECHNICAL NOTES

- Limit values
- Average life of 100.000 h with $T_A = +25^\circ\text{C}$
- Connect to 0 V when remote wire not used
- Active with remote at +V at power on
- PVC, 4 x 0.14 mm²
- A - reverse polarity protection
B - overload and short circuit protection

DETECTION DIAGRAMS

* standard fibre-optics

Standard fibre-optics:
OF-42-ST-20 proximity / OF-43-ST-20 through beam

High efficiency fibre-optics or accessory lenses can be used to obtain larger operating distances. Refer to **Fibre-optics (A.02)** of the **General Catalogue**

Note: the detection diagrams of the S7-1/4 models in normal and fast mode, corresponds to the values of the S7-2/5 models in fast mode, but with half the operating distance
