

### Unmanaged Hardened Gigabit Ethernet Media Converter

**(1) 10/100/1000Base-T Port + (1) 1000Base-SX/LX Port or  
(1) 100/1000Base-X Port**

The SISTG-211 Series is a new generation of unmanaged hardened Gigabit Ethernet media converter. The converter can provide multimode or single mode fiber connections with fixed SC connectors for extending the Ethernet service distance over fiber. The converter also has a SFP version that provides the ultimate flexibility to choose the appropriate SFP module to match your communication and distance needs.

It has redundant input power connections to ensure safe reliable operation in temperatures between -40°C and +75°C. Lantronix hardened switches are certified with UL Class 1 Division 2 to operate reliably in hazardous locations such as Oil & Gas, manufacturing, and the chemical industry.
