

QorlQ T1024/14 and T1023/13 Communications Processors

Next-generation system-on-chip (SoC) for low-cost enterprise and service provider edge and network control applications

TARGET APPLICATIONS

- ▶ Wired and wireless branch routers
- ▶ WLAN 11ac enterprise access points
- ▶ Service provider WLAN access points
- Unified threat management gateways
- Multifunction printers
- ▶ Router and switch controllers
- ▶ Line card controllers
- Industrial automation and computing, single board computers
- Aerospace and defense ruggedized network equipment

The QorlQ T1024/23 communications processors combine single or dual 64-bit cores, built on Power Architecture® technology, with high-performance Data Path Acceleration Architecture (DPAA) and network peripheral bus interfaces required for networking and telecommunications applications. The T1024 and T1014 processors come in a full featured 23 x 23 mm package which provides scalable pin compatibility with the quad-core T1042 processor, and even the eight-core T2081 processor, for price and power scaling with a single system design. The T1023 and T1013 processors are interfaces and power-optimized SoCs designed to deliver impressive

single- or dual-core performance for cost and power sensitive networking systems. Both versions offer an excellent software compatible 64-bit and I/O upgrade path for the popular QorlQ P10XX family of 32-bit communications processors.

SOFTWARE AND TOOL SUPPORT

With the help of our partner network, we deliver a wide range of tools, run-time software, reference solutions and services to accelerate your designs.

- CodeWarrior Development Studio for Power Architecture technology
- ▶ Proprietary QorlQ Linux® SDK
- ▶ VortiQa application software
 - VortiQa application identification software (AIS)
 - Enterprise software for networking
 - VortiQa open network switch software
 - VortiQa open network director software

- ▶ Professional services and support
 - Commercial services
 - Linux SDK support package
 - Reference design software (RDS) support package
- ▶ Third-party software and tools
 - Enea, Green Hills, Mentor Graphics and Wind River

QorlQ P1020 AND T102X PROCESSORS COMPARISON TABLE

Core Power ISA	1-2 x e500v2 32-bit	1-2 x e5500	1-2 x e5500	4 x e5500
