

TSF70 SERIES

COMPACT EXTERNAL MOUNT WITH TEMPERATURE SENSING

The TSF70 series is a compact external fitting device, with a high specification thermistor so capable of sensing both liquid level and temperature.

Mounting of this series is with the use of a compression seal, so does not require access to the inside of the tank.

Typical applications include vending machines, commercial washing machines and evaporator units.

They are manufactured in a variety of materials with a choice of gasket materials, to suit most commonly used liquids.

The switch action may be reversed by rotating the device through 180°.

Features

- Compact design with temperature sensing
- Available in Nylon, Polypropylene or PPS
