**THP-700+** 

 $50\Omega$ 

700 to 4000 MHz

### The Big Deal

- Small size (0.25" X 0.25" X 0.10")
- Good matching
- Low insertion loss

### **Product Overview**

THP-700+ is a  $50\Omega$  high pass filter fabricated using SMT technology. This high pass filter covers from 700 to 4000 MHz. This series of filters are constructed in a tiny package offering dual advantage of superior lumped element filter performance in a space saving SMT package. These models are suitable for mass production without losing flexibility of small volume requirements. It has repeatable performance across lots and consistent performance across temperature.

# **Key Features**

Feature	Advantages	
Low insertion loss	Can be used in high performance applications.	
Good rejection	This enables the filter to attenuate spurious signals and reject harmonics for broad band frequency.	
Small size, 0.25" X 0.25" X 0.10"	The small surface mount package enables the THP-700+ to be used compact designs.	

A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.

B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.

C. The parts covered by this specification document are subject to Mini-Circuits standard limited warranty and terms and conditions (collectively, "Standard Terms"); Puchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits' website at www.minicircuits.com/MCLStore/terms.jsp

### **Features**

- · Low insertion loss
- · Good matching
- Small size ( 0.25" X 0.25" 0.10" )

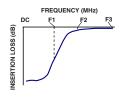

## **Applications**

- Defense system
- · Public safety services
- Private and public mobile

### **Functional Schematic**

### **Typical Frequency Response**

+RoHS Compliant The +Suffix identifies RoHS Compliance. See our web site for RoHS Compliance methodologies and qualifications

### **Maximum Ratings** Operating Temperature -40°C to 85°C -55°C to 100°C Storage Temperature 0.5 W max. RF Power Input
